

We are inviting you to join a research study called GlobalMinds Dementia. Please read this document and ask us if you have any questions.

## Why is GlobalMinds Dementia happening?

We want to learn more about brain problems like dementia to help treat it in future.

## Why was I invited?

You were invited because you are 18 years or older and have a brain condition like dementia.

## Do I have to join?

No, it is your choice and you can say no. If you change your mind later, that's fine. This will not affect your care. The person that came with you to this appointment will be able to help you with your choice.

## If you join...

1. Someone will explain the study to you.
2. You will answer some questions about you and your health
3. We will take a blood sample from you
4. You can answer some extra questions at this visit or at home if you would like

## Taking part takes up to 2 hours

You will get a £50 thank you voucher and may help future generations with dementia

We can give the money to charity instead if you prefer.

## We will keep your information safe

No one will know you took part unless you choose to tell them.

## You can withdraw at any time

You do not have to give a reason and it will not affect your care.

## What happens with the results?

Results and samples will be shared with researchers to help find a treatment for dementia.

If you would like, we will contact you in future to keep you up to date and ask you some more about you and your health

**Thank you**

For considering taking part.
